## Supply list

2 panels Stock # 6070-11, 12 or 13. *You can use any combination of panels, but you will need two.*  
1/4 yard of 2 fabrics for windowpane borders  
1 1/4 yd. Black Marble Stock # 9880-59  
15 fat quarters of lights and 15 fat quarters of darks. You will need exactly 9 fat quarters of each but getting at least 15 of each allows for a nice variety of fabrics to mix and match the fabrics for a scrappy look. *See additional border option yardage at the end of pattern.*

To make windowpane blocks, cut 12 squares 6 1/2" x 6 1/2" from the two panel sections. Cut 12 strips 2 1/2" x 8 1/2" from the two windowpane border fabrics. Beginning on the top left side of the block, add the dark strip. Using 1/4" seam allowance, sew the strip on stopping 1/4" from the bottom. On the bottom right side, add the light windowpane border strip. Sew all the way across stopping 1/4" from the end. You will then have three fabrics joining at the same point. You will want to join the two windowpane strips together by sewing them right sides together at a 45 degree angle. *This does take a little bit of practice but it gets easier each time. Pressing after you finish sewing the right angle helps tremendously.* Once you have sewn the right angle, trim away the excess and press. This is called a mitered seam. Repeat this with the remaining squares.

Make 12

From the black sashing fabric, cut 8 strips 1 1/2" x 8 1/2" and 3 strips 1 1/2" x 26 1/2". Following the diagram below, lay out your blocks into 4 rows of 3. Sew together. Press. Measure through the middle of the quilt top in both directions. Your quilt top needs to measure 26 1/2" wide by 35 1/2" long.

Cut 2 black borders 3 1/2" x 35 1/2". Sew these to each side. Cut 2 black borders 3 1/2" x 32 1/2". Sew to the top and bottom. Press. Your quilt top should now measure 32 1/2" x 40 1/2". Pay close attention to these measurements so that your outer rows of 8" blocks will fit together nicely.

## Patchwork Quilt Block

### 8" block finished

All cutting measurements include 1/4" seam allowances. Once you get all the pieces cut, the blocks will go together rather quickly. It is a scrappy block, so it doesn't matter which fabric goes where, just pay attention to the light and the dark fabric placement.

Unfold your fat quarters and press them nice and flat. Layer as many fabrics as you feel comfortable cutting at one time. Make sure you have a new blade in your rotary cutter and begin cutting!

### Cutting Instructions

**A-** Cut 3 strips 4 7/8" x 22" from 9 assorted light fat quarters and 9 dark fat quarters. Recut each strip into 4- 4 7/8" squares. Recut diagonally once to yield a total of 8 triangles per strip. *You will need 4 (lights and darks) triangles per block.*  
**C-** Cut 2 strips 2 7/8" x 22" from 8 assorted light fat quarters and 8 dark fat quarters. Recut into 4- 2 7/8" squares. Recut diagonally once to yield a total of 28 triangles per fabric. If you use all the strips you will have a total of 448 triangles. *You need 416 triangles so you will have extra if you use all of each strip. If you are comfortable using triangle papers, you can use 2" finished sized papers here.*

**B-** Cut 2 strips 2 1/2" x 22" from 7 assorted light and dark fat quarters. Recut into 2 1/2" squares. You need a total of 104 light squares and 104 dark squares. You will have extra squares if you use all of the strips.

### Sewing Directions

Join the light A's to the dark A's. Make 104 sets, 2 per block. Press towards the dark. Set aside.

Join the light C's to the dark C's. Make 208 sets, 4 per block. Press towards the dark.

Join the C sections to B. (1/2 are dark and 1/2 are light) Repeat this until all B's and C's are connected. See *Diagram 2*.

Make 104 of these sections. 2 per block.

Lay out the A sections and the B/C sections and begin forming the blocks. The top half of the block is a mirror image of the bottom half. This makes for mindless sewing if you lay out your stacks carefully. You can sew the entire stack and flip half of the stack upside down and then form the 8" anvil type block.

Following the **color picture**, layout the blocks to form 4 rows of 8

and 10 rows of two. Join 5 of the rows of two together and add to one side of the windowpane section. Repeat with the remaining rows of 2.

Add 2 rows of 8 across the top and the remaining rows of 8 across the bottom.

Your quilt will measure 64" x 64". *Backing needed is 4 yards, binding 1/2 yard.*

### Optional Border

If you need to make your quilt larger, add an additional border of 8 1/2".

To do this, cut 2 strips 8 1/2" x 64 1/2". Sew to each side. Cut 2 strips 8 1/2" x 80 1/2". (You will need to buy an additional 2 1/4 yards of your favorite print to add the outer border.) This will make your quilt 80" square.

Backing for larger quilt is 5 yards, binding 3/4 yard.
